## Governing with Intention<sup>TM</sup>

WATSON's **Governing with Intention**<sup>TM</sup> 2-day workshop delivers practical tools and clear guidance to address the specific governance challenges facing directors and management. Learn how to shift the dialogue to the issues that matter, navigate the line between governance and management, elevate your personal contribution at the board table, and design your board's culture.

**Bring Your Issues To The Classroom.  
Bring Solutions Back To The Boardroom.**

## Chair with Intention<sup>TM</sup>

As goes the chair, so goes the board — its dynamics, its performance, its effectiveness. Leadership is a board imperative. Organizational success demands that boards not only develop the leadership they need today, but also build the leadership of tomorrow.

**Chair with Intention**<sup>TM</sup> is our 1.5-day course for current and incoming chairs. Participants network with peers facing similar issues to develop their chairship - the skills, practices and approaches that differentiate board leaders from meeting administrators.

**Take your place at the head of the table.**
